PROFESSIONAL SUMMARY

Cloud Engineer focused on AWS and Azure infrastructure, landing zones, identity controls, cost optimization, and migration support for enterprise workloads.

SKILLS

- AWS, Azure, Terraform, CloudFormation, IAM, VPC, Azure DevOps, Python, Linux, Cost Optimization

EDUCATION

B.S. Information Systems, Rutgers University, 2017

EXPERIENCE

- Cloud Engineer, SilverPeak Digital, 2021-2026 - Built secure AWS account baselines and automated cloud resource tagging compliance.
- Infrastructure Analyst, CoreBridge IT, 2017-2021 - Supported Windows and Linux migrations to Azure virtual networks.

PROJECTS

- Multi-account AWS landing zone with centralized logging and permission boundaries.
- Cloud cost dashboard that identified idle compute and storage waste.

CERTIFICATIONS

- AWS Solutions Architect - Associate
- Microsoft Azure Administrator
