PROFESSIONAL SUMMARY

MLOps Engineer focused on model deployment, feature stores, experiment tracking, monitoring, and reproducible machine learning infrastructure.

SKILLS

- Python, Kubernetes, MLflow, Kubeflow, Airflow, Feature Store, Docker, Terraform, Prometheus, CI/CD

EDUCATION

M.S. Data Engineering, New York University, 2020

EXPERIENCE

- MLOps Engineer, SignalBay AI, 2022-2026 - Built model release pipelines, monitoring dashboards, and reproducible training environments.
- Platform Engineer, DataHarbor, 2020-2022 - Operated Airflow DAGs and containerized data science workloads.

PROJECTS

- Model deployment template with canary releases and automated rollback metrics.
- Feature freshness monitor comparing training and serving data distributions.

CERTIFICATIONS

- Google Professional Machine Learning Engineer
